MANUAL HANDLING & WAREHOUSE SAFETY

Warehouse hazards are not uncommon. It is a potential for multiple losses, in particular, forklift material handling and manual handling by workers as this seems to be one of the most common causes of injury in a warehouse environment. This programme is intended to create safety and health awareness to those working in a warehouse environment to eliminate if not reduce potential and existing hazards.

[TRAINING OBJECTIVES]

The objectives of this one day training on Warehouse safety Awareness are to understand:

- * The legal requirement according to the OSH Act 1994
- * The obligations of Employers and Employees
- * Identification of Hazards in warehouse
- * Requirements for storing Hazardous Materials
- * The effects of Manual Handling/Lifting Materials
- * Safety requirements for Forklift, Powered Pallet Truck, Hand Truck etc
- * Fire Hazards in the warehouse

[COURSE CONTENTS]

- * The obligations to the legal safety requirement of Malaysia
- * Identification of existing and potential hazards in warehouses
- * Application of risk assessment and control techniques at the warehouse
- * The importance of warehouse housekeeping
- * Hazardous materials storage safely
- * The chronic effects of wrong manual handling
- * Manual handling and lifting materials in regards to ergonomic techniques
- * Segregation of materials according to their compatibility
- * Safe operation of forklift, hand truck and powered pallet truck
- * Fire safety procedure in warehouses
- * Summary and questions and answers
